- Fire resistant and elastic
- Suitable for light and dark fabrics
- Washable at 60°C
- Order from 1 sheet
- Provided ready-to-apply

NEW

EN ISO 15025

With half a century of experience in textile transfers, our expert R&D team have developed and refined a DTF process offering superior quality transfers.

The result is an optimal quality of transfer with bright colours and deeply opaque white on both dark and light textiles, with no undesired outlines or overruns.

Our fabrication process offers you the means to create incredibly precise and fine detailing down to **0.2mm**!

Our new high-strength adhesive strengthens thin, often fragile areas, making it easier to handle transfers before application.

DTF transfers are delivered ready to apply, in **A2** to **A6** formats, on transparent film, for easy and quick application.

CHARACTERISTICS

- DTF transfer (Direct To Film)
- Four-colour printing on transparent backing paper
- Printing of fine details, thin lines and colour gradients
- No undesired outlines or overruns
- ISO EN15025 standard
- OEKO-TEX® class 1 certified

FOR WHICH TEXTILES SUPPORTS?

Our DTF transfers can be used on the majority of traditional textiles, both dark and light.

Light weight clothing and accessories in cotton, polyester, lycra: T-shirts, sweat shirts, polo tops, tote bags…
