

SeriLight

FourColour Process transfers

SeriLight

SeriLight is a CMYK transfer technique using both offset printing and classical screen-printing. The result is photo-quality with an unlimited number of colours. This economical transfer has no glue lining. An **outline with the textile color** is automatically added in order to print every thin line.

- CHARACTERISTICS AND ADVANTAGES**
- Unlimited number of colours
 - Thin touch
 - Elastic
 - Economical
 - Ironable
