 "Rush option" available

OneColorWhite is a fully serigraphic transfer, without adhesive outline. Full-fill colour ink printing provides transfers that can be applied to all fabric colours.

It is fully compatible with traditional fabrics such as cotton or polyester, but may not always be compatible with more technical textiles such as nylon or weather-proofs. Select the **SuperWhite** technique for those fabrics.

CHARACTERISTICS AND ADVANTAGES

- Soft touch
- Applicable on all fabric colours
- No glue overflow
- Elastic
- Washing resistant
- Washable at 40°C
