- OEKO-TEX® and REACH certified

FOR WHICH TEXTILE SUPPORTS?

SeriOne White is perfectly matched to traditional fabrics such as cotton or polyester, but is not always compatible with more technical supports such as nylon, baseball caps and wind-cheaters (select the SeriWhite technique for those fabrics).

Light clothing, cotton or polyester accessories: t-shirt, sweat shirt, scarf..

SeriOne White is a fully serigraphic transfer, without adhesive outline.

Full-fill colour ink printing provides transfers that can be applied to all fabric colours. Details and outlines are precise, soft and delicate to the touch.
